July 25, 1861.

GOODS

Probably the best custom would be, to farnish every member of the family, es pecially those who labor out of doors, with simple cup of warm cottee, well oream ed, immediately after rising from bed,-Then let them attend to chores, or mow ing, horing, &c., for so hour or two. GREATLY REDUCEI ing, horing, de., for an hour or two. fast preparing. They will feel better and do more work .- Am. Agriculturist.

not agree with the boarding school regi-

me which prescribes a long walk before breakfast, as a means of promoting

health.

PASTURING .- It is poor economy to feed pastures very close. They will yield more, if the grass has a mir start, than if fed down so low that it can scarcely grow. Cattle which pick a pasture down to the bone, nearly always run largely to bone, John Johnson supposed a case founded on repeated observation, in illustration of this great truth. He says: "A has a field which he thinks will k-ep 20 cartle, and he puts them in it. B has a field of the same size and quality, but he put only 10 cattle into it. Now, it will almost a ways be found that in the automa, the 10 cattle have gained invariably as many, often more pounds, live weight, than the 20. The 10 with first rate pasture should have gained 400 lbs each, and it is doubtful if the 20 would have gained 200 ibs each. The 10 would make outra beef, and bring an extra price while the 20 would make only third-rate beef, bringing little more per pound than they were worth when turned out to pusture. The 10 would have paid 25 each for their pasture, or perhaps more. This I have often seen." -----

How to Grow Peaches.

Procure your trees grafted upon the wild plan stock. The tree partakes of the nature of the plum, being hardy, and will never Winter-kill, and putting out late in the Spring, will never be injured by the frest, and it is accretion preventive against the workings of the peach-grub, while the natural life-time of the tree is beyond that of your own; so you may depend upon the peaches each year, and for a long time, without the destructive and discounging influences attending the growth of the common peach. They can be obtained from fifty to seventy-five cents per tree, and you had better pay five times the amount than not to obtain them, and be certain of peaches every year. Try it. and on our word for it, you will be satisfied with the result .- Ohio Cultivator.

BUTTER .-- To produce a good article at this season, a cool, well ventilated dairy room is undispensible. Exclude flies from the premises with frames covered with millinst, placed in the doors and windows. Observe scrupulous trainess in every operation. The tub or barrel for the reception of sour milk should be kept at a dis tance from the dairy, and convenient to the pig pen. The effluvia from a fermenting swill tub will injure the flavor of but-

MANURY --- Large additions may be made to the compost heaps by eutting coarse swamp grasses, and weeds which are unfit for fodder. Cut them before the seed is formed, otherwise many will ripen and seatter over the farm with the manure. Decomposition goes on rapidly aid ed by the heat of summer, and sink slops. Main Street, Lancaster, Ohio.
COLD AND SILVER BOUGHT AND SOR
Sight Exchange on the East for sile—into contents of privies, etc., will be offensive, unless plaster, muck, or other absorbants are used to retain the escaping gases. Remember that every ounce of ammonia lost is equivalent to the loss of perhap a bush el of grain.

FENCES.- Keep in good repair, particularly around fields where young ontile are

larly around fields where young cattle are coefficied, and adjoining corn and grain a lots which tempt animals to break from the worst florance of from the worst florance or from the worst florance of from the worst florance or from the worst florance of from the worst florance or from the worst florance of from the worst florance or from the worst florance of from the worst florance or from the worst florance of from the worst florance or from the Watch against the appearance of foot ro and other diseases.

UNIVERSAL COUGH REMEDY.

This valuable preparation, freed of all the common complaints, such as Opiates of expectorana, which not only ran down the system, but destroy all chance of eure, will be found on trial to possess the following properties, and to which the most valuable testimentals may be found in the pamphlets.

For Whosping Cough, and as a Soothing Syrup, it meets every want, and by early use witl save the largest propertion of ruptures in children which can be traced to Whooping Cough.

In ordinary Coughs and Bronchial Complaints, the forerunners of Consumption, its splendld tonic properties make in not only the most perfect enamy to disease, but builds up and austains the system against a recurrence of the Complaints. No nursery should be without it, nor should parouts fall to get a pamphlet, to be found with all dealers, as the only way 15 do justice to its value.

CELEBRATED

TOLU ANODYNE

This great Neuralgic Remedy and Natural Opiste calls for special attention and interest, being free of Opium, or preparations of Opium, or of any but its strictly vegetable and medical properties. For Neuralgia, Rhaunatium, Gout, Tooth and Ear ache, spinal complaints, bleeding at Langs or Stomach, Rose or Hay Fever, Chairrh and all minor Nervous complaints. For loss of sleep, chronic or nervous head ache, sick head ache, it has no equal, and to which we offer testimonials from undoubted sources.

For Hellrigms Tremens it is a sare romody.

For Bowel complants, including Chelera Norbus. 2: is aplendidly adapted, in not only removing the pains but nating as physic, a great contract with Opium, which not only constipates and drugs the system, but makes the remedy werse than the disease.

From physiciant we sak attention, and on demand Formulas of Trial Bottles will be sent, developing in the Anodyne an Opiate which has long been wanted, and in the Couph Remedy such as rest outirely on one sentral principle.

oston, Massachusotts. For sale by all qual wholesale and rotal dealors in very town and city.

DR. LELAND'S ANTI RHEUMATIC BAND Rheumatism, Gout and Neuralgia,

AND A SURE CURE FOR ALL MERCURIAL DISEASES.

It is a conveniently arranged Band, sontaining a medicated compound, to be wern around the Waist, without highly to the most delicate person, no change in habits of living is required, and it entirely removes the disease from the system, without producing the tingricos effects arising from the use of powerful internal medicines which weaken and destroy the consiliation, and give iemporary relief only. By this treatment, the medicinal properties contained in the Band, come in contact with the blood and reaches the disease, through the ports of the skin, effecting in avera instance a perfect cure, and reaters the parts afflicted to a builty condition. Tails band is also a most powerful Arri Marcuniat, agent, and will entirely relieva the system from permicies effects of Mercury. Moderate cases are cured in a few days, and we are constantly receiving testimonials of its efficacy in aggravated cases of long standing.

Price \$2.00, to be had of Brugglets generally, or can be each by mail or express, with full direction for use, to any part of the country, direct from the Principal Office No. 408 Brondway, New York.

N. B.—Descriptive Circulars Sent Free. [177 Agents Wanted Everywhere.]

Irish Steamship Line. Steam between Ireland and America NEW-YORK, BOSTON & GALWAY.

CHALYBEATE RESTORATIVE

A Naperient and atomachic preparation of IRON pariled of Caypin and Cachon by sombustion in Hydrogen. Searcionad by the highest medical authorities, both in Enrope and the United States, and prescribed in their practice.

The experience of thousands delity proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale & otherwise sickly complexions indicate its necessity in almost every congulvable case.

Innoxicate in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debitts. Nervens Affections, Emeriation, Dyspeps.a, Consispation, Dischae, Dyspeps.a, Consispation, Dischae, Dyspeps.a, Consispation, Dischae, Dyspeps.a, Consispation, Serofulous Tubercules is, Sait Rheum, Mismensiruation, Whites, Chierceis, Liver Capitaints, Primples on the Face, &c.

Consumption. Serofatous Taboreniesis. Sait Rhoum. Mismansiranion. Whites. Chicorois. Liver Complaints. Chromic Headaches. Rhoumatism, Intermittent Fevers, Pimples on the Face. &c. .

In cases of General Debitity. whether the result of acute disease, or the continued diminuation of norvousand muscular energy from chronic complaints, one trial of this restorative have proved anacessful to an extent which no discription now written attestation would render credible. Invalida no long bedridden as to have become forgotten in their own neighborhoods. have suddenly re-appeared in the busy world as if just returned from protracted travel in some distant land. Some very signal instances of this hind are attested of female sufferers, emaciated vietlins of apparent marasmus, sanguineous exhaustion, critical chauges, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Afficients of all kinds, and for reasons familiar to medical men, the operation of this preparation of firm must necessarily be salutary, fer, unlike the old oxides, its vigorously toole, without being exciting and overheating: and gently regularly aparient, even in the most obstinate cases of centreness without ever being a gastric purgative or indicting a disagrecable seasation.

It is this latter property, among others, which makes it as remarkably effectual and permanent a remedy for Piles, upon which it site appears to exert a dispersion that the open of these Chalpbeate pills has often sufficed for the most habitual cases, a cen when advanced to Dysenters, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local points, loss of flesh and strength, debititing cough, and remittant heetic, which general indicate fasepent Consumption, this remedy has allayed the slarm of friends and physicians, in several very gratifying and interesting instances.

In Serofalous Tabersularie, this medicated from has

the slarm of friends and physicians, in sovera: very graifying and interesting instances. In Serefalers Tabersuloris, this medicated from has had far more than the good effect of the most cau-tionally balanced preparations of jodine, without any of their well known liabilities. The attention of females cannot be too confidently ited to this remedy and restoration, in the cases pe inflierly affecting them.

In Ricumstism, both chronic and infismmatory—
the latter, however, more decidedly—it has been
rearribly well reported, both as alleviating pain and
reducing the swellings and stiffners of the joints and

In Intermittent Fevers it must necessarily be a gree emedy and energetic restorative, and its progress is he new settlements of the West will probably be on

the new settlements of the West will probably be one of high renown and usefulness.

No remedy has over been directed in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its asse.

Put up to meat flat metal boxes containing 50 pills, price 50 cents per box (forsals by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to R. B. LOCKE & &o. General Agents.

Nov. 8, 1800—1932 20 Cedarat. N. Y.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitisted, work, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous mint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Ilim who says, "I

will visit the iniquities of the fathers upor their children." Its effects commence by deposition from the blood of corrupt or alcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the eystem. Most of the consumption which deconates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it, To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in AYERS

Compound Extract of Sarsaparilla, he most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the reseuc of the system from its destructive consequences, Hence it should be employed for the cure of not only Scrofula, but also those other affecand Skin Diseases, St. Asthony's Firm, Rose, or Envirolas, Emples, Postules, BEOTETIES, BEAINS and BOILS, TESTONS, TETTER and SALT RUBERS, SCALD HEAD, RINGWORM, RESCRIPTION, SYPHILITIC and MERCURIAL DIS-RIMERATISM, SYPHILITIC and MERCHIAL DIS-BASES, DROPSY, DYSPERSA, DESIGITY, and, indeed, ALL CONFLAINTS ARISING FROM VITIA-TED OR INTUINE BLOOD. The popular belief in "imposing of the blood" is founded in truth, for scrafula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S Ague Cure,

aminated constitutions.

FOR THE SPEEDY CURE OF Internationt Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Feriod."al Headache, or Allieus Headache, and Billous Fevers, Indeed for the whole class of a "senses originating in bilincy derangement, caused by the Malaria of Miasmatic Counseless.

We are enabled here to offer the community a remedy which, while it cures the above compiants with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the misamatic poison of Faveu AND AGUN from the system, and prevents the development of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease, if taken on the first appearance of the disease. AND AOUR from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billoud districts, where Feven AND AOUR prevails, every body should have it and use it feeely both for cure and protection. A great superionity of this remedy over any other ever discovered for the speedy and certain sure of Intermittents is that it contains no Quinine or inheral, consequently it produces no Quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the discass.

Fever and Agus is not alone the contaguence of the missmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Good, Rondacke, Blindness, Toethacke, Earnehe, Catarrh, Asithma, Palpitation, Painful Affection of the Spicen, Hysteriet, Pain in the Bowels, Colic, Paralysis and Derungensest of the Nomack, all of which, when originating in this cause, put on the intermident type, or become periodical. This "Cura" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to intmigrants and person travelling or tamporarily-residing in the malarious districts. If taken occa-

them all alike. It is an invaluable protection to intingrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be exceeded from the system, and cannot accumulate in sufficient quantity to ripon into disease. Hence it is even more valuable for protection than care, and few will even suffer from Intermittenta if they avail themselves of the protection this remedy affords.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass. SIFFORD & CO., KAUPPMAN & CO., and E. L. SLOUW, Lamearen, and by Druggists and Dealers everywhere. 36-3m.
